GREY MONET™
BQ6800

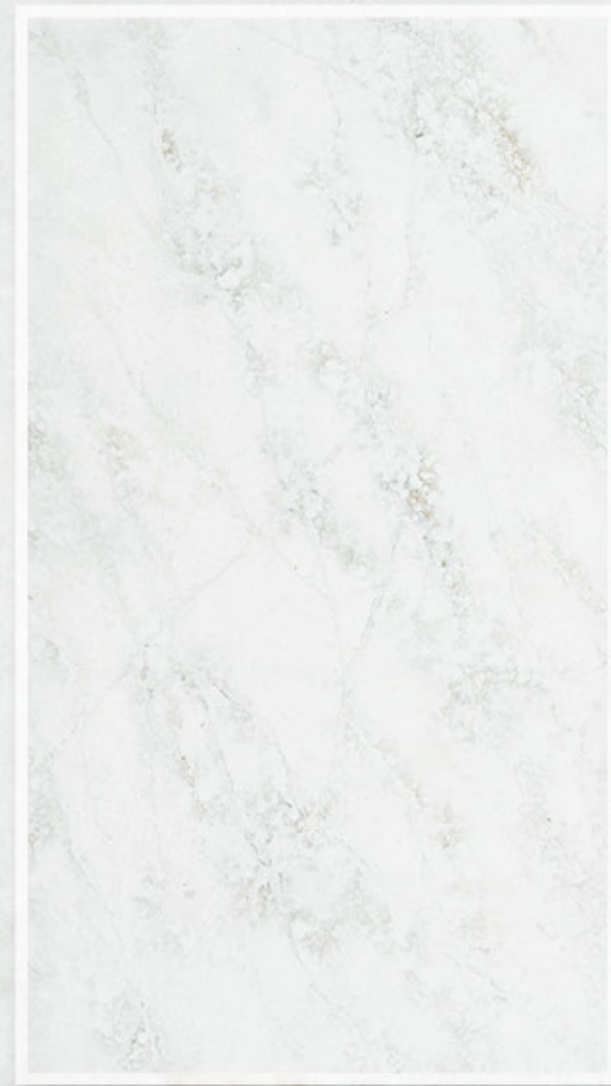

EXOTIC COLLECTION

The graceful colors of Exotic Collection give an endless charm for all surfaces. These premium products will create a luxurious and regal satisfaction for the most discerning customers.

NUVOLATO™ BQ6880

Nuvolato captures the ethereal beauty of drifting through a cloud-strewn sky. Replicating the flowing texture of clouds, Nuvolato features a soft white and grey background, with elegant beige and grey veining, evoking a light and weightless feeling.

ADAMELLO™ BQ6881

Replicating the vast horizons and sweeping views of high-altitude adventures, this surface captures a sense of limitless freedom and grandeur. Featuring iridescent clouds, it showcases a spectrum of colours that create striking contrasts while highlighting the quartzite's layered depth.

ESMERALDA™
BQ6882

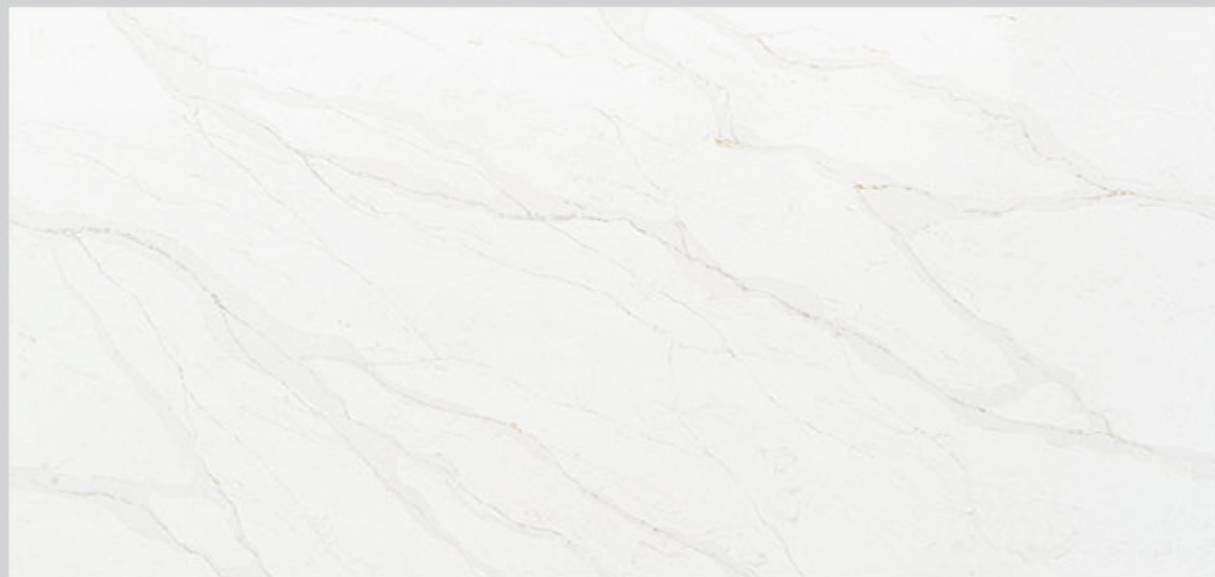

Inspired by the soft, billowy mists that drape over mountain ridges, this surface brings a serene and mysterious allure of coastal fog into your space. Featuring distinctive jade green tones interwoven with grey and silver veining, Esmeralda is inspired by the ethereal beauty of mist-covered landscapes.

MARMORIS™ BQ6801

VICOSTONE Marmoris™ features refined golden-greay veining that enhances warmth and imparts a sophisticated, trend-forward allure.

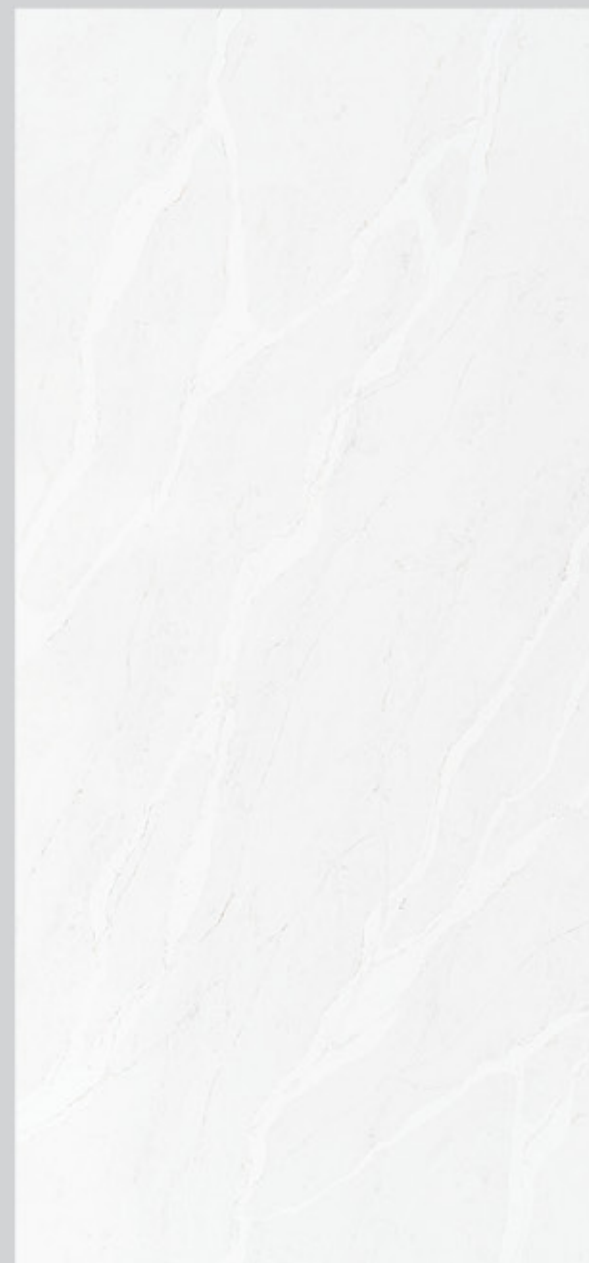

LACUS™ BQ6803

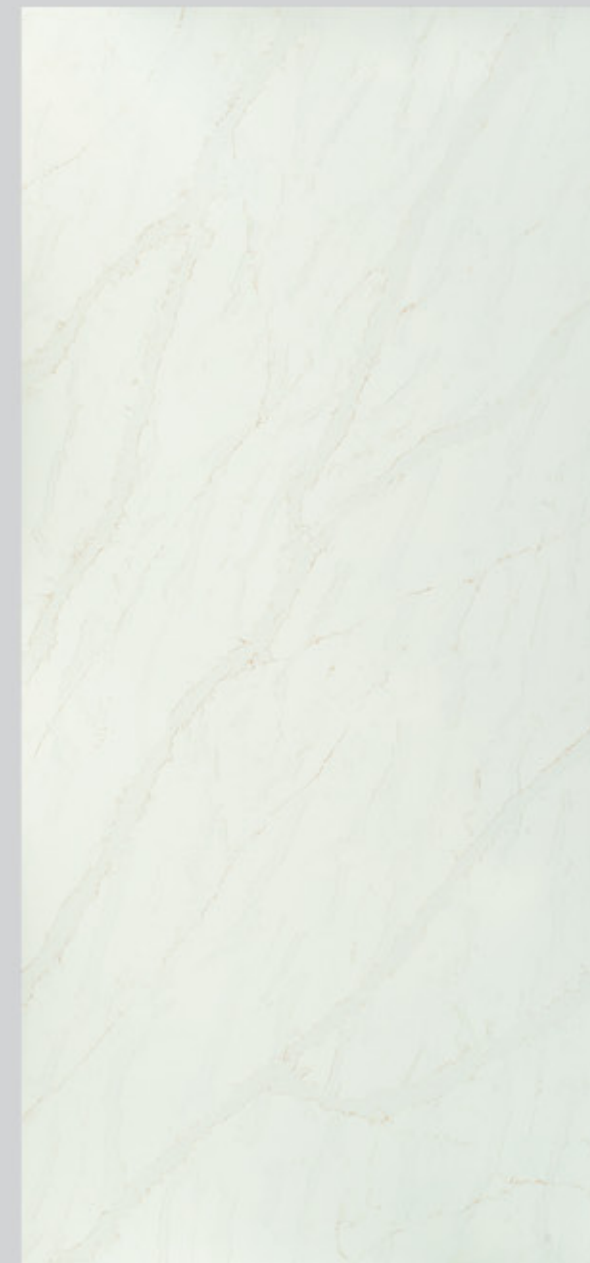

Inspired by the intense contrasts and dynamic shifts of a tempestuous sky, VICOSTONE Lacus™ captures the raw, elemental power of nature. Its striking patterns and deep hues bring the energy and majesty of stormy skies into your space.

BENAA Surfaces

A leading and exclusive distributor of the premium-quality Vicostone® Engineered Surfaces in 11 Western States.

WHY **VICOSTONE** IS YOUR **TOP CHOICE**

Global Capacity

Powered by six cutting-edge Italian Breton production lines, VICOSTONE stands as a global leader, recognized among the largest suppliers of engineered stone countertops worldwide.

Top Quality

Our VICOSTONE selection offers the premium quality and most durable engineered stone on the market. Our VICOSTONE slabs outperform other suppliers in terms of glossiness, hardness, and density.

Distinctive Design

Our VICOSTONE selection offers designs that are both natural-looking and distinctive. We are setting industry benchmarks, inspiring and providing originality which set us aside and giving our clients more options and satisfaction.

Competitive Advantage

VICOSTONE's recent vertical integration of raw materials supply chain empowers it to control costs while maintaining stringent quality standards, allowing us to offer competitive pricing without compromising excellence in product outcomes.

Versatile Sizing Options

We provide Jumbo slabs, measuring 65" x 130", ensuring optimal material yield and seamless installation for large-scale projects. We also offer a cut half slab format for efficient material use, tailored to the specific needs of each project.

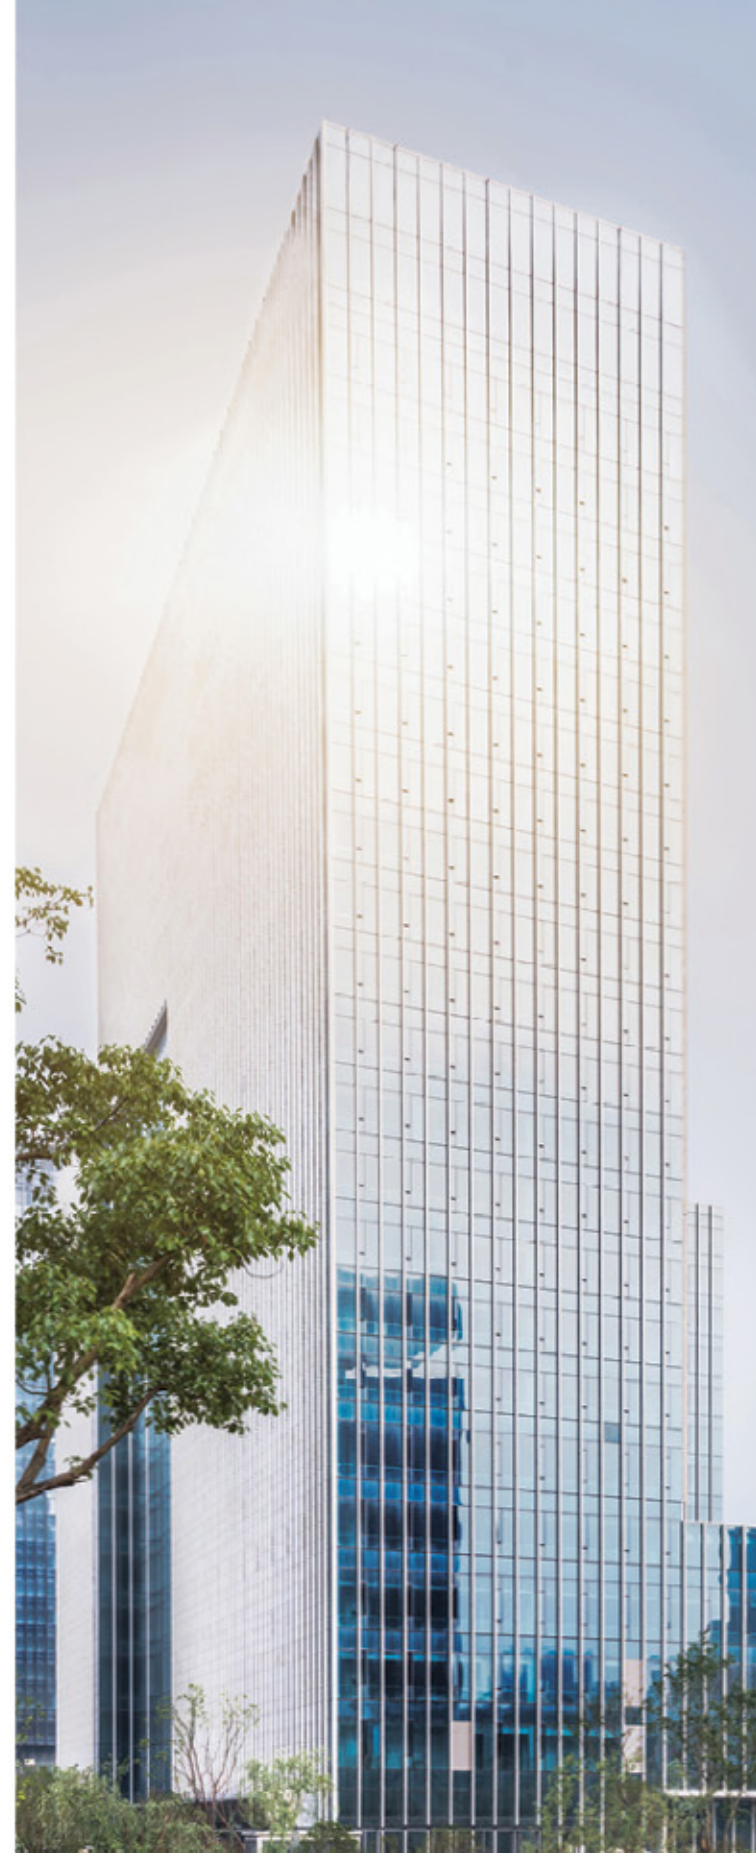

Easily Accessibility

With our continuous expansion plans to open new warehouses and showrooms across 11 Western states, we aim to cater to your every need, where and when you need them.

Highly Valued & Recognized Client Care

Our sales and customer service teams receives high recognition from our dealers, providing exceptional support and service in the market.

VICOSTONE 

MULTI-UNITS PROJECTS

Exclusively distributed in 11 Western States by BENAA Surfaces, VICOSTONE engineered surfaces are the trusted choice of leading design firms in the USA when it comes to selecting kitchen countertops, island tops, and vanity tops for multi-unit projects. Here's why our VICOSTONE selection stands out as the ultimate surface option for such endeavors:

- 01** Large inventories and distribution centers across the Western region ensure peace of mind regarding lead times and stock availability.
- 02** Competitive pricing options range from classic designs to marble looks and high-end selections, accommodating various project owner budgets.
- 03** Our brand reputation and commitment to premium quality enhance the overall value of your projects.

PRODUCT INFORMATION

| THICKNESS | WEIGHT | | LBS/FT ² |
|-----------|-----------|-----------|---------------------------|
| | FULL SLAB | HALF SLAB | |
| 2 cm | 601 lbs | 296 lbs | 10.24 lbs/ft ² |
| 3 cm | 901 lbs | 444 lbs | 15.36 lbs/ft ² |

| | FULL SLAB | HALF SLAB |
|------------|-----------------|-----------------|
| JUMBO SIZE | 65 x 130 inches | 32 x 130 inches |

* Half slabs are available in all designs and thicknesses, except for special order colours.

** Weight may vary between different designs.

SURFACE FINISHES: Polished, Honed.

TECHNICAL SPECIFICATIONS

| SPECIFICATIONS | TEST METHOD | RESULTS |
|--------------------------|---------------------|--|
| Water Absorption | ASTM C97 / C97M-18 | ≤ 0.02 % |
| | BS EN 14617-1:2005 | ≤ 0.02 % |
| Apparent Density | ASTM C97 / C97M-18 | 2.1–2.3 g/cm ³ |
| | BS EN 14617-1:2005 | 2.1–2.3 g/cm ³ |
| Flexural Strength | ASTM C880/C880M-18 | Fine and medium grain: ≥ 55 MPa Coarse grain: ≥ 41 MPa |
| | BS EN 14617-2:2016 | Fine and medium grain: ≥ 60 MPa Coarse grain: ≥ 40 MPa |
| Compressive Strength | ASTM C170/C170M-17 | Dry: ≥ 200 MPa |
| | BS EN 14617-15:2005 | Dry: ≥ 185 MPa |
| Chemical Resistance | ASTM C650-04:2014 | Unaffected |
| | BS EN 14617-10:2012 | Class C4 |
| Dimension Stability | EN 14617-12:2012 | Class A |
| Impact Resistance | ASTM C1870-18 | 36-inch ball drop: ≤ 0.25 in 48-inch ball drop: ≤ 0.27 in |
| | BS EN 14617-9:2005 | > 4 J |
| Abrasion Resistance | ASTM C501-84:2015 | Abrasive Wear Index: I _a ≥ 179 |
| | BS EN 14617-4:2012 | Volume of chord: V ≤ 165 mm ³ Chord length: l ≤ 27 mm |
| Thermal Shock Resistance | ASTM C484-99:2014 | No visible damage after 10 cycles |
| Freeze-thaw Resistance | EN 14617-6:2012 | No visible defects after 20 cycles Change in mass: ≤ 0.05% Change in flexural strength: -8.4% + 5.4% |
| | ASTM C1026-13:2018 | No visible damage after 300 cycles Wt Loss: ≤ 0.09% |
| Mohs' Scratch Hardness | EN 101: 1991 | ≥ 6 |
| | DIN 51130:2014 | R9 at Honed 400 |
| Slip Resistance | ASTM C1028-07 | Static coefficient of friction - Dry: 0.7 + 0.8 (Polished/Honed finish) - Wet: 0.5 + 0.7 (Polished/Honed finish) |
| | | |
| Microbial Resistance | ASTM D6329-98 | Ranking 3: Resistant to Mold Growth |
| Stain Resistance | ASTM C 1378-04:2014 | Class A (Polished finish) |
| Surface Blemish | ASTM E84 | Class A |

MATERIALS COMPARISON
